………………………………………………………………………………………………

………………………………………………………………………………………………

5. Price Per KG

………………………………………………………………………………………………

………………………………………………………………………………………………

6. Agreed terms of Trade:

………………………………………………………………………………………………

………………………………………………………………………………………………

Kindly Note:

As Dairaan Global LTD we can train your key personnel on pre-grading techniques and you will be responsible for quality control of delivered produce as well as maintaining the collection point premises under sound sanitary conditions. In addition, trained personnel will ensure that people handling horticultural produce maintain proper standards of hygiene. The produce grades shall be required to conform to international market requirements.

Where applicable the supplier agrees to follow practices and procedures necessary and conducive to production of high quality produce for the export market and buyer requirements with specific reference to seed and agrochemical inputs, production practices and record keeping. We will provide the format of records to be kept. The production procedures should conform to GOOD AGRICULTURAL PRACTICE (GAP) as required by various codes and regulations e.g., Kenya Standard Code of Practice for the horticulture industry, EURO GAP, etc.
