Bank Name & Branch;	Mpesa No;

## Produce Description

Produce;	
Variety/Grade;	
Quantity Per delivery;	
Harvesting Schedule;	
Agreed Terms of Trade;	

## Skills & Training

Please be advised;

As Dairaan Limited, we offer training for your key personnel in pre-grading techniques. Your responsibility will include quality control of the delivered produce and maintaining the collection point premises under sanitary conditions. Trained personnel will also ensure that individuals handling horticultural produce adhere to proper hygiene standards. The produced grades must meet international market requirements.

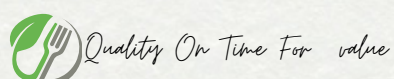

## Continous Monitoring

Where applicable, the supplier agrees to implement practices and procedures essential for the production of high-quality produce for the export market and buyer requirements. This includes specific attention to seed and agrochemical inputs, production practices, and record-keeping. We will provide the format for the records to be maintained. Production procedures should align with GOOD AGRICULTURAL PRACTICE (GAP) as mandated by various codes and regulations, such as the Kenya Standard Code of Practice for the horticulture industry, EURO GAP, etc

Attach your national ID & Pin to this application. Please read and complete carefully, as this information you provide may affect your payments, terms of trade and your tax liability.

Send it via email or hand it over to the Human Resource offices or training staff
